Connectix Virtual Game Station™

For Windows® 95, 98 and Mac OS

Easy to Use

Playing PlayStation® games on your Mac or PC is simple with Connectix Virtual Game Station. After installing Connectix Virtual Game Station, just insert your PlayStation game CD and the game starts. You don't even have to click your mouse to play.

Many Ways to Play

Since Connectix Virtual Game Station is compatible with standard keyboards and many game pads and joysticks, you can choose what controller to use. And, you can change your controller settings on the preferences screen.

Two Player Games - No Problem

Connectix Virtual Game Station supports many two player PlayStation games.** The preference screen allows each player to customize their game controller. And, the Virtual Memory Card feature allows you to save the game settings.

Save Your Game Progress

No need to play the first level again because you can pick up where you left off. The Virtual Memory Card feature in Connectix Virtual Game Station allows you to save your game progress and come back later to play. Also imports DexDrive™ saved game files.

List of Compatible Games

Check out our list of compatible games on our website. We are constantly updating it with the latest tested games. Users should refer to the recommended games list prior to purchase. Go to www.virtualgamestation.com for the latest list.

† Audio and video performance of Connectix Virtual Game Station may not be the same as that of an actual PlayStation®

*Not compatible with G3/G4 upgrade cards.

**To use 2 controllers on one Mac or PC, you must have two ports available on the computer.
